

AREA: Management:
Business Information Technology Specialization

DEGREE: Associate of Applied Science Degree

LENGTH: Four semesters (two-year) program

PURPOSE: The associate of applied science degree in management is designed for persons who seek fulltime employment in management positions upon completion of the community college curriculum. Persons who are seeking their first employment in the managerial field and those presently in management who are seeking promotion may benefit from this curriculum. The business information technology specialization is designed for those preparing to enter the management area of computer information systems as a career field.

OCCUPATIONAL OBJECTIVES: information processing assistant/liaison, MIS manager trainee or programmer trainee

TRANSFER GUIDELINES: Transfer opportunities for associate of applied science degrees, if existing, are very specific in nature. Students planning to transfer to a baccalaureate program are urged to consider the Business Administration Program to earn an associate of arts and sciences degree.

PROGRAM REQUIREMENTS: The curriculum in management is similar to other curricula in business and includes technical courses in information systems technology, courses in related areas, general education and electives. Instruction includes both the theoretical concepts and practical (hands-on) applications needed for future success in management. Students are urged to consult with their faculty advisor to plan their program and select electives. Upon satisfactory completion of the program, the graduate will be awarded the associate of applied science degree in management with a business information technology specialization.
