

The IST Program consists of a number of career studies options that focus on a specific career field in information technology (IT). These programs are best suited for individuals who already hold a degree and want to change careers or who seek advancement in their current field.

The career studies certificates listed here provide students with opportunities to gain skills in designing, building, testing and maintaining Web pages, links and interfaces to Web-enabled applications; designing, implementing, troubleshooting and maintaining databases; and/or designing, installing, administering and repairing computer networks.

Before entering a career studies program, students should have a strong foundation in using computer applications (ITE 115 course). Students should also have a strong foundation in computer concepts to include database fundamentals, Internet and networking fundamentals, operating systems, software design and computer hardware troubleshooting prior to beginning the program. This foundation can be obtained by completing the core IT courses which include ITD 110, ITD 130, ITN 109, ITP 100 and ITN 106.

Database Administration Professional

ITD	252	Database Backup and Recovery	3
ITD	254	Database Network Administration	3
ITD	258	Database Performance and Tuning	3
