

Letter from the President

Welcome to Lord Fairfax Community College (LFCC), where your future is our focus. Whether your goal is to transfer to a four-year college or university, pursue education for a career, or simply take courses for self-enrichment, we are here to help. Throughout your college experience, you will encounter dedicated faculty and an entire community ready to help you meet your goals.

Students find our courses to be exciting and engaging and I am confident that you will too. Our commitment to your success begins with top-notch faculty who are experts in their fields and dedicated to teaching. LFCC courses will help you develop critical thinking and problem-solving skills to prepare for the future. Well-stocked learning resource centers will enable you to advance your research skills and learn more about your chosen field of study. Quality equipment, laboratories, and learning facilities await you.

With seventy-four academic programs to select from, you have a wide range of options – some that you may never have considered. Transfer articulation agreements with four-year colleges and universities are available for a smooth transition to institutions such as Old Dominion University, Virginia Tech, The College of William and Mary, and many others. In addition, professional development and short-term training courses taught by industry professionals can help you hone your skills to advance in the workplace.

Courses are offered at the Middletown Campus, the Fauquier Campus, and the Luray-Page County Center. Our students attend college both full- and part-time. Courses are available in traditional and summer semesters during the day as well as convenient evening, Friday-only, weekend, and eight-week formats.

Scheduling at LFCC is flexible. Many courses are available online, or in a “hybrid” format, involving some classroom and some online sessions. LFCC’s online course offerings allow students to “attend” a course anytime and from any place where they have access to a reliable Internet connection. Both online and hybrid classes help you develop technological skills that will be critical to your success in the 21st century global business community.

Regardless of which courses you take, and when, you will have excellent student support services. Financial aid and scholarship assistance are available to help defray the cost of tuition, books, and fees. Helpful student services such as academic advising, career planning, and online registration/payment and tutoring services are available. Through peer learning and student activities, you will have an opportunity to enrich your personal development beyond the classroom. At every step of the way, we are here to help.

Congratulations on choosing LFCC. We look forward to helping you reach your goals!
