“I was sold after my first semester. The professors were amazing, the drive convenient and the student body good-natured and pleasant.”

Stephen Sides plans to transfer to the College of William and Mary to double major in history and anthropology. His career goal is to teach at the collegiate level, so he plans to continue his education in pursuit of master’s and doctoral degrees.
Lord Fairfax Community College has a number of agreements that pave the way for a smooth transition from LFCC to a four-year college or university and maximize the number of acceptable transfer credits. Many of these agreements also offer Guaranteed Admission to students who achieve the required GPA and who meet specific requirements.

In addition, in Virginia, all four year public institutions and many private ones publish a ‘Transfer Guide’ that helps Virginia community college students determine transfer course equivalencies and transfer procedures.

As an added bonus, thanks to the Virginia Transfer Grant, in-state students who attend LFCC or another Virginia community college have an opportunity to receive up to $2,000 annually for three years (or 70 credit hours) upon transferring to a four-year institution.

To qualify, students must complete a transfer associate degree with a 3.0 grade point average and meet financial aid eligibility requirements. The grant provides $1,000 for all eligible students, with an extra $1,000 for students who pursue undergraduate work in engineering, math, technology, teaching or science. Students must maintain a 3.0 grade point average and continue to demonstrate financial need to receive the award for each of the three years.

Visit http://www.lfcc.edu/transfer for the latest transfer and guaranteed admissions agreements and the specific requirements for each institution.
