

AREA: Education

DEGREE: Associate of Arts and Sciences Degree

LENGTH: Four semesters (two-year) program

PURPOSE: With the shortage of teachers in Virginia in some endorsement areas, the demand is growing for qualified, licensed teachers. The associate of arts and sciences degree program in education has been designed for students to transfer to a four-year college or university to complete their education in preparation for teacher licensure and employment as a teacher in a public or private school setting.

TRANSFER GUIDELINES: The program sequence listed is most accurate for students pursuing an endorsement in elementary education, middle grades, or special education. However, it is only a guide and additional coursework may be required. The AA&S degree in education is appropriate for students seeking a secondary level endorsement as well. Requirements vary based on the endorsement area (subject/grade level) you plan to teach and which institution to which you choose to transfer. Seeking academic advising early with your faculty advisor and the transfer institution is critical to plan a smooth transfer.

To help facilitate the transfer process, each state-supported college and most private colleges in Virginia produce a Virginia Community College Transfer Guide. These transfer guides provide specific information about the transferability of courses and/or programs to their respective institutions. Transfer guides can be obtained directly from the college of interest or can be referenced in the Office of Student Success on both the Fauquier and Middletown Campuses. Students may also download many Virginia transfer guides online at the following address: <http://www.myfuture.vccs.edu/transfer/>.

Students should begin preparing for transfer as early as possible. Steps in this process include: making a career decision, identifying colleges which offer the intended program of study, examining available transfer guides and college catalogs, talking with transfer representatives, identifying program prerequisites, researching the academic competitiveness of the institutions and program under consideration, attending open house events offered by the colleges and exploring financial aid and housing opportunities.

LFCC offers many services and programs to assist the transfer student. Students are encouraged to seek the assistance of their faculty advisor or counselor to gain additional information to plan a successful transfer experience.
