Courses Requiring Reading Prerequisite

Many LFCC courses require a reading level prerequisite. Students’ placement test scores may indicate
the need to satisfactorily complete developmental reading instruction before enrolling in these courses.
To determine whether a reading prerequisite applies to a specific course, see Course Descriptions
beginning on page 127.

Core Computer Competency Requirements

Overview:
A minimum level of proficiency in the use of computers and various software applications is essential in
today’s technological world. Therefore, LFCC requires each degree-seeking student to demonstrate
proficiency in using a Windows-based operating system, along with components of an integrated
productivity software package, including word processing, spreadsheet, database, presentation and/or
communication applications.

Requirements:
The majority of the College’s associate degrees require that students complete a computer course such as
ITE 115 - Basic Computer Literacy or equivalent. In lieu of completing a basic computer proficiency
course, students may demonstrate proficiency in the core computer competencies. Students who
successfully demonstrate proficiency in using a Windows-based operating system along with word
processing, spreadsheet, database, presentation, and communications applications may then select an appropriate elective to complete the required credit hours for their degree.

**Computer Competency Testing**

LFCC requires many degree-seeking students to demonstrate proficiency in computer operations and software applications. Students may take ITE 115 in computer literacy and competency. Students may demonstrate proficiency in core computer competencies by passing each of the three sections of the IC³-Internet and Computing Core Certification (Computer Competency Certification Exam). The three sections cover topics in Computing Fundamentals, Key Applications, and Living Online. Each section requires the purchase of an exam voucher. In the event of a student not passing a section, two retakes are allowed, with the purchase of additional vouchers. There is no waiting period required for the initial retake and a mandatory seven day waiting period for the second retake. Student should allow approximately three hours to complete all three exams.

Individuals seeking IC³ certification are required to take and pass all three IC³ exam sections. Each section must receive a passing score to achieve the LFCC computer literacy requirement. If students don’t pass the exam or if they feel that they need to improve their computer skills, they must take a computer course.

However, after passing the IC³ exam, students neither earn college credit for exam certification nor fulfill computer competency requirements at transferring universities or colleges. Students who successfully demonstrate proficiency may then select an appropriate elective to complete the required credit hours for their degree.

**Classification of Programs**

Programs offered by the College may be classified both by their purpose and by the degree or certificate to which they lead. College-parallel transfer programs lead to an associate of arts and sciences (AA&S) degree. They are intended to prepare students for transfer to four-year baccalaureate programs. Occupational-technical programs, intended to prepare students for specific occupations, lead to an associate of applied science (AAS) degree, a certificate (C) or a career studies certificate (CSC). Following completion of these programs, students may choose to enter the workforce or pursue additional education or training options.

The College reserves the right to withdraw program offerings if there is not sufficient demand or for other appropriate reasons.

The programs of study offered at LFCC are as follows:

**College Transfer Two-Year Degree Programs:**

Associate of Arts and Sciences Degree in Business Administration
Associate of Arts and Sciences Degree in Education
Associate of Applied Science Degree in Early Childhood Education
Associate of Arts and Sciences Degree in General Studies
Associate of Arts and Sciences Degree in Liberal Arts
Associate of Arts and Sciences Degree in Liberal Arts: Communication Specialization
Associate of Arts and Sciences Degree in Liberal Arts: Fine Arts Specialization
