What do Matthew and Renard Carlos Like About LFCC?

You always know that the people at LFCC care about the students and want to enrich their lives. I also enjoy the small class sizes and the activities. Plus, the price is great!

The College has a positive atmosphere with accessible teachers who reach out to you to help you succeed.

Brothers Matthew and Renard Carlos, 20, of Warrenton, Va., chose LFCC to further their academic and personal goals. Both Matt and Renard are general studies students at LFCC with plans to transfer to a four-year institution. Matt plans to pursue a bachelor’s degree in international relations and a career as a Navy officer while Renard plans to earn his bachelor’s degree in political science. The brothers have enjoyed participating in student activities on LFCC’s Fauquier Campus and agree that LFCC is the place to be!
